Technology used-React.js, Tailwind CSS, Clerk,Cluster

5) GRADE CRAFT (A CUTTING-EDGE SOFTWARE STUDENT PERFORMANCE)

Grade Craft is a cutting-edge software designed to enhance student performance tracking and safety management in educational institutions. It integrates with existing systems and provides real-time alerts, automated CGPA and attendance calculations, and detailed performance reports for informed decision-making.

Technology used-Html,CSS,Javascript,Php,Mysql

Skills & Tools

- Programming Languages: Java, JavaScript, C, PHP, TypeScript, HTML, CSS
- Frameworks & Libraries: React.js, Node.js, Express.js,Spring Boot, Tailwind CSS, Three.js, Angular.js,Next.js
- Database Management: MongoDB, MySQL, PostgreSQL,Cluster,Xampp,Drizzle Orm,Neon
- Cloud & Deployment: AWS, Vercel, Netlify
- Version Control & DevOps: Git, GitHub, Docker,
- Other Tools: Postman, Eclipse,Clerk(user management)

Education

Sri Shakthi Institute of Engineering and Technology
B. Tech, Information Technology
Oct 2022 - May 2026   CGPA-8.40

St.Kanakadasa Matric Higher Secondary School
SSLC&HSC
2020&2022   97%

Areas of Interest

- Full stack development
- Mern stack developer

Certifications

- Cognifyz Technology - Internship Completion Certification
- Infosys Springboard- Advanced MERN Development Course Completion Certification
- Udemy - FULL-STACK Web Application using Spring Boot and React JS Course Completion Certification
- Great Learning -Devops Fundamentals

Achievements

- Solved 200+ problems across LeetCode
- Developed 10+ Java console projects
- Built 10+ full-stack projects
- 3+ Projects are published and patented

Volunteer Experiance

Non-Technical event Coordinator- Kalam 2024

Patent & Patented

- IJCRT-Grade Craft
- IJRAR-Restaurant Management System
- Patent Application no: 202441048888(Grade Craft)
- Patent Application no: 202441090891(Smart Retail Hub)
